

UNESCO-designated sites for the sustainable management of natural resources and ecosystems in Asia and the Pacific

Project ID 2210214041

This activity will support the consolidation and development of the four subregional MAB networks covering the majority of member states in the region, as well as the rapidly developing regional network of UNESCO Global Geoparks. Particular emphasis will be placed on enabling the region's MAB Community, Biosphere Reserves and other UNESCO-designated sites fully implement the final four years of the MAB Strategy (2022-2025), to serve as sites for the localization of the SDGs, connecting the global goals with national UN Sustainable Development Cooperation Frameworks and in-situ implementation.

Assessed Contribution - Assessed Contribution	Natural sciences	Contribution to Regular Budget	85,000	27,142

Project contributes to

Contribution to UNESCO Results Framework 2022-2025

Sector: Natural sciences

Outcome 3 - Enhance knowledge for climate action, biodiversity, water and ocean management, and disaster risk reduction

Output: 3.SC1 - Inclusive knowledge and capacities of Member States strengthened to advance and apply science for sustainable management of natural resources, ecosystem and biodiversity conservation and restoration, and disaster risk resilience

Intersectoral

Outcome 3 - Enhance knowledge for climate action, biodiversity, water and ocean management, and disaster risk reduction

Output: 3.IP2 - Environmental education strengthened to equip learners to address global environmental challenges

Contribution to Sustainable Development Goals

100%

UNESCO Global Priorities and Priority Groups

- Gender Equality | 30%
- Youth | 10%
- Small Island Developing States | 15%
