

Mitigating the impact of COVID-19 on Education through distance learning in Iraq

Project ID 567IRQ1005

To respond to the COVID-19 crisis and the closure of schools since the end of February 2020, UNESCO is building upon the support previously provided to the TV channel, by assisting the MoE's TV to complete the production of television based lectures for full all the subjects for grades 1 - 6 and ALP. The overall objective of this project is to mitigate the disruption to learning caused by the COVID-19 crisis by maximizing access to distance learning opportunities for all school age learners across the country through the provision of the continued support to the Federal Ministry of Education TV channel.
